General Thoughts for Core Subjects:

Two 2.5" binders, complete with lined paper and dividers are preferred for core subjects (Math, LA, Social Studies, Science) as there are handouts that students will need to file/store and assignments that will need to be handed in. Scribblers will not meet these needs. Duo-tangs will not handle the volume of paper over the course of the school year.

A pencil case/ soft sided tool box that is transferable to each binder containing pencils/pens (blue or black), pencil crayons, glue stick, white-out, and an eraser is recommended.
